

Compound NBR 08880 - Technical Data sheet
For RX® endcap EC 80NBR black

Specification :

M2BG814A14B14EA14EF11EF21EO14EO34 acc. ASTM

<i>Physical properties</i>	<i>Units</i>	<i>Requirements</i>	<i>Results</i>
Hardness	Shore A	80±5	84
Tensile strength	psi	2031	2266
Elongation	%	125	139
Tear strength	kg-cm		34
Modulus at 100%			1695
Specific gravity	gr/cm ³		1,293
A14 Heat resistance at 100°C/70h			
Hardness change			+5

Note :

The specifications given in this data sheet are the result of research carried out with the best possible accuracy and according to the test methods laid down in the standards referred to.

Tests carried out in different laboratories, under different conditions and/or with different prepared samples may give slightly different test results. This data sheet replaces all earlier given technical specifications which herewith, become void.
